

OUR PROPERTIES

IGNATIUS COCKSHUTT FOREST

A 24 acre woodlot in the County of Brant provides critical refuge and a corridor for safe passage for species travelling along the banks of the Grand River. It is named as a tribute to the philanthropist and his family who have initiated and supported many local charities.

SAVANNAH OAKS POND

This property was reclaimed aggregate land with a wash pond. A previous owner did significant landscaping to provide natural space for their employees. We are doing further studies to better understand the biodiversity of this site.

WHO WE ARE

- We are a group of volunteers with more than fifty years of Environmental Stewardship
- Our focus is to establish natural land corridors that run through the Grand River Watershed. To do so, we require monetary donations as well as land for preservation

WHY CONSIDER LAND DONATION?

- To protect and preserve land for future generations
- To restore, enhance and protect habitat and biodiversity
- Eligible as charitable donation under Income Tax Act
- May be eligible for additional tax benefits through the Canadian Ecological Gifts Program (CEGP)

OUR MISSION

The **BRANT LAND TRUST** is dedicated to securing, protecting and restoring functioning ecosystems and the rich diversity in Canada's Carolinian region.

A BIT ABOUT THE PROCESS

- Obtain independent legal and financial advice
- Complete appraisal of the fair market value of the property
- Complete environmental assessment of the property
- Land ownership is transferred to the Land Trust
- An official donation receipt is issued
- There may be additional requirements to qualify under the CEGP

We recognize the lands where we do this work are the traditional territories of the Neutral, Anishinaabe and Haudenosaunee Nations. These Nations have lived and worked intimately with these lands for millennia. We acknowledge our responsibilities as treaty people. The Dish with the One Spoon Treaty requires that sharing and caring for the land peacefully is everyone's responsibility.
